Report

Date Due: April 3, 2026

Total: 100 marks*

You need to submit your report discussing the philosophy of the programming language that you have chosen (including the programming paradigm). The following perspectives must be covered for full marks:

- Historical development
- Language Overview
- Language features, like:
    1. syntax,
    2. data types,
    3. primitive operations,
    4. sequence control,
    5. programming environment.
- Your own Evaluation, in your own words
- Bibliography or References(including WWW addresses)
- Appendix sample programs/subprograms.

Do not use ChatGPT. Using AI tools for generating any assignments has as a consequence a 0 in the whole course.
